SEEDING AND CATEGORY ELIGIBILITY

All Open category skiers (Seniors and Juniors) are seeded together by gender for the Sprint Qualifying round in order of Sprint CPL with the best starting first. Unless the Competition Secretary receives notice of an athlete's intent to race up at the TCM on 2 February, 2017, qualifying Juniors will be entered into the Junior quarterfinal heats.

For the prologue, the start order for all categories, including Midget, will be by Distance CPL. Those not on the CPL including those with a SMDL will be randomly placed following the last CPL-listed skier.

For interval start distance races, the Distance CPL will be used when seeding all categories. Within each category skiers will be ranked based on distance CPL. Groupings will then be formed based on the number of skiers in the combined category. Start positions will then be randomly assigned within each group. The decision of the Jury will specify the order of start for each group. Athletes without CPL ranking or with a SMDL will be assigned to a separate group and randomized.

Number of groups will be as follow:

- 10 and less participants: 1 group
- 11-20 participants: 2 groups
- 21-30 participants: 3 groups
- 31 participants and more: 4 groups

For the pursuit with handicap start, start order will be based on results of the interval start race on Saturday. The winner of the race will start at 0:00 while other skiers will start by their time difference with the leader. The Jury will determine when the rest of the skiers will start in a single group. Athletes without CPL ranking or with a SMDL will be assigned to a separate group and randomized. It is possible to participate in the pursuit without doing the interval start race but the skiers will start behind those who participated in the interval start race and their position will be randomly assigned.

For the wave start race, seeding and bib assignment for all categories, including Midget, will be by Distance CPL. Those not on the CPL including those with a SMDL will be drawn as a group and placed behind the last CPL-listed skier. Waves will be composed of 10 skiers and will start in a 30-second interval. Chevron will be used to assign the start positions.

Skiers seeking to meet the criteria for selection to provincial teams should register in the appropriate category indicated in the table above.

Masters age Men and Women may register and compete in Open Categories by registering as Seniors.

University skiers of Junior age can compete in either Junior or Senior categories, but not both and must chose the same category for all events of CEC. For the sprint competition, skiers will be ranked according to the qualifying round only.

As indicated in the CCC Competition Model, athletes may “race up”. Athletes wishing to do so should consult with their coaches and/or parents to select the most appropriate race category. One of the considerations may be whether skiers are seeking to meet criteria for provincial team selection.

LICENSING

- A. All skiers, including Midgets and University competitors, must hold a valid racing license issued by CCC or FIS, or hold a recognized national cross-country license from another country. If not, a Supporting Member Day License (SMDL) needs to be purchased for each race day during the online registration process.
- B. All Québec skiers competing in Juvenile to Senior categories must also hold a SFQ annual license. Québec skiers competing in Midget and Masters categories must also have a SFQ license or buy a SFQ Day License online for each race day.
- C. Licenses for Para-Nordic guides are the responsibility of the visually impaired athlete. Although guides do not pay registration fees, they should register on Zone4 and must sign the CCC Discharge form at the Race Office unless they hold a valid CCC license.
- D. Aside from satisfying requirements (A) or (B), each full-time student athletes registering for the Ontario and Québec University series must meet the academic standards specified in the appropriate Provincial Cup circuit specifications.

NOTICE OF DOPING CONTROL

Participants in the Canadian Eastern Championships must be aware that doping control tests may be conducted by the Canadian Centre for Ethics in Sport (CCES) on a random basis in accordance with the Canadian Anti-Doping Program. To avoid an inadvertent positive test and the consequences of an anti-doping rule violation, athletes are invited to read the full notice on the CEC website at <http://cecski.ca/race-info/doping-control/002E>.

IMPLEMENTATION OF THE NO DOUBLE POLE RULE AT EASTERNS

Clarification of no-double pole zone rule under the ICR

Internationally, FIS is concerned about preserving classical technique for the future and has asked National Ski Federations to test the implementation of no-double pole zones in FIS level domestic competitions this winter.

The OC is informing you that as per ICR 310.2.1.5 "the Jury may ban the use of specific techniques on marked sections of the course," the Jury will add a No-double Pole Zone during the classic sprint 2 lap course at Eastern's.

Clarification of the rule and sanctions

- i) Only diagonal technique with diagonal movements of both arms and legs are allowed in the no double pole zone; this means there can only be one pole in the ground at any time. All other techniques are not allowed in the zone.
- ii) The zones will be clearly marked (start and stop) for the Official Training day; officials with video, as well as jury members will verify that the rule is followed during competition.
- iii) In case of infractions the jury will sanction the skier according to the ICR.
