

## VOLUNTEER WALL OF FAME

Nancy Flood, BC

**1. What type of organizations do you volunteer for?**

Two main types: (1) Sports organizations that my children belong or belonged to, related to skiing and swimming—the local clubs and their provincial and national co-ordinating bodies, and (2) Environmental groups, since I teach biology and ecology at the university where I work.

**2. What is the most rewarding part about volunteering?**

I'd have to say working with people whose company I really enjoy, but also being able to use my skills in different ways, learn new things, and know that I'm making things possible.

**3. What do you have to say about all the volunteers who make events possible?**

That they are fantastic and amazing and fun—and a little bit crazy.

**4. Finish this sentence: I volunteer because...**

I'm crazy too? No, really, because volunteers matter—they make things happen.
