<b>Program Overview</b>	<p>The Rocky Mountain Racers are a high performance cross country ski and biathlon team based out of the Calgary/Canmore area (Alberta, Canada). Athletes in this program receive high quality coaching, training and race support services in their respective sports. The club is diverse group of athletes from early teens to mature athletes in their thirties. Although many athletes live in the Calgary/Canmore area, RMR also supports athletes throughout Alberta, other provinces; and, from time to time, athletes from other countries. Athletes vary from seasoned veterans to young guns in the sports of cross country skiing and biathlon. All these athletes train together, the veterans' mentoring the younger athletes while the younger athletes help keep things fun. The binding factor essential to making the team work well is that all the athletes are striving to become the best skiers and athletes that they can be.</p> <p><a href="http://www.rockymountainracers.com">www.rockymountainracers.com</a></p>
