

VOLUNTEER WALL OF FAME

Ian Sibbald, BC

1. What type of organizations do you volunteer for?

I spend more of my volunteer time involved with Cross Country skiing than anything else. I also help with other organizations that my kids belong to, both sporting and non-sporting.

2. What is the most rewarding part about volunteering?

Volunteering allows opportunities to use our skills in areas outside our usual work environment. It allows new challenges and affords us the chance to meet people we would not get to meet otherwise. There is great satisfaction in looking back at an event that went well and knowing that we had a part in its success.

3. What do you have to say about all the volunteers who make events possible?

It is always amazing that people will volunteer to do jobs and work hours that they would never consider doing if it was paid work, yet they do it for nothing except the desire to be involved and to help the community.

4. Finish this sentence: I volunteer because...

I get to work with fantastic, committed people who love what they are doing. What more could we ask for?
