Program Overview	<p>CNEPH has no official or written policy regarding training /study. However, we strongly encourage CNEPH athletes to take a number of courses. It is the athlete who must decide how many courses he is able to take, considering his training program that he has discussed and agreed to with our coaching staff. In addition, if necessary, CNEPH's administrators can intervene with educational institutions in favor of our athletes. Most athletes will take part in 3 camps per year out of Quebec. As for races, younger athletes compete at the Eastern's and Nationals Championships</p> <p>Each athlete attends 2-4 classes and spends 5-10 hours per week on schoolwork.</p> <p>www.cneph.ca</p>
