SEEDING	Seeding will be in accordance with the technical package: Haywood NorAm Series Technical Package found at: http://www.cccski.com/Events/Technical-Packages.aspx . 6.9.1 Interval Start Distance Races: The Distance CPL will be used when seeding all categories. Within each category skiers will be ranked based on distance CPL. Groupings will then be formed based on the number of skiers in the combined category. Start positions will be randomly assigned within each group. The decision of the Jury will specify the order of start for each group. Athletes without CPL ranking will be assigned to a separate group and randomized. 6.9.2 Mass Start Races: Seeding and bib assignment will be by Distance CPL. The best skier on the CPL gets position one in the start grid. Those not on the CPL including those with a SMDL will be drawn as a group and placed behind the last CPL-listed skier. NOTE: The start will be a straight line rather than a chevron grid for this event. 6.9.3 Sprint Competitions: Sprint competitions will consist of a qualification round of all skiers in each category. Senior and junior men and senior and junior women will be combined for the qualification round and started in order of Sprint CPL with the best starting first. The purpose of this is to allow junior skiers to score FIS points. A separate group will be formed of those License holders without CPL and SMDL skiers. Start order will be per Jury decision. For the quarter-final heats, juniors have the option of racing in the senior category or the junior category. Unless the Competition Secretary receives notice of an athlete's intent to race up, <u>before or at the TCM prior to the competition</u> , all qualifying junior men and women will be entered into the junior quarterfinal heats.
