## 2. What is the most rewarding part about volunteering?

Volunteering tends to be a very social thing, plus it gives a great sense of accomplishment putting on a good event and meeting all the challenges. And staying involved in some way in high performance sport (as I slow down and my own racing seems to have tapered off) is putting back for all the great years I had as a more active racer\ in various sports.

## 3. What do you have to say about all the volunteers who make events possible?

Volunteers make the world go round!
