

VOLUNTEER WALL OF FAME

Delores Franz Los, BC

1. What type of organizations do you volunteer for?

Over the years, I have volunteered for many different organizations and in many different capacities but, I volunteer mostly with organizations that focus on outdoor activities and sports involving children, (cross country ski programs, outdoor adventure programs, environmental education programs, track and field); but I have also volunteered with events for adults, such as World Cup Ski events, the Olympics. I am currently volunteering with a cycle tour organization for seniors.

2. What is the most rewarding part about volunteering?

It is rewarding knowing that each activity or event I am involved in is made possible because of the time and effort I, and all the other volunteers have put into making it happen. I just really like being busy and working hard to make things good things happen. Also, I am inspired by the many other volunteers with whom I work.

3. What do you have to say about all the volunteers who make events possible?

I say that many events simply would not happen without volunteers; and many people, especially children, would miss out on opportunities that can greatly improve the quality of their lives.

4. Finish this sentence: I volunteer because...

I have skills, experience and enthusiasm that others can benefit from just as I did and still do benefit from the experience and skill of others who work with me.
